

A collaborative place  
to share and promote  
local innovation and  
improvement in  
healthcare.

The ACI **Innovation Exchange** is a one stop shop to showcase and promote innovation and improvement projects from across the NSW health system. The website provides a forum for researchers, clinicians, consumers and health organisations to discover and share their innovative ideas and learn from the experiences of others.

**Learn. Share. Connect.**

**ACI** NSW Agency  
for Clinical  
Innovation

The **Innovation Exchange** provides an opportunity to promote dialogue, share ideas and collaborate with teams who are planning, implementing, evaluating or have completed projects.

Building on the Australian Resource Centre for Healthcare Innovations website (ARCHI), the Innovation Exchange encourages knowledge sharing and learning from the experiences of others.

### **The Innovation Exchange helps you Learn, Share, Connect by:**

- promoting information about current clinical projects and innovations
- providing resources for health professionals to learn new ways of improving and innovating for their local needs
- encouraging health professionals to share their experiences and lessons connecting health professionals with others who share similar clinical interests to improve healthcare.

## **OUR AIM**

The Innovation Exchange aims to consolidate and promote information and experience about clinical innovation and improvement across NSW.

## **BENEFITS**

The Innovation Exchange aims to improve efficiency, quality of work, reduce duplication and encourage the spread of successful healthcare innovations.

### **PATIENT BENEFITS:**

Sharing information about patients' experiences of health services to help others understand exactly where patient and carer experience can be improved.

### **CLINICAL BENEFITS:**

- promoting achievements with other health professionals
- showcasing improved ways of working and health innovations to enhance the quality and efficiency of our services
- achieving more by pooling knowledge and resources to work collectively
- accessing current information that is relevant to clinicians and healthcare professionals.

## **GET INVOLVED**

Share your innovations and lessons learnt to help improve the experience of patients and health care professionals in the NSW health system by adding any new, innovative service improvement projects, models of care, guidelines, implementation plans or research to the Innovation Exchange today.
