Useful resources for clinicians working with children with acute behavioural disturbance:

- Children and Adolescents with Mental Health Problems Requiring Inpatient Care - PD2011_016
- Management of patients with Acute Severe Behavioural Disturbance in Emergency Departments - GL2015_007 (paediatric flowchart)
- NSW Paediatric Service Capability Toolkit (Tool 7)
- Red Book (Chapter 6: Children and Adolescents)

About the Paediatric Patient Safety Program
The Paediatric Patient Safety Program works across a range of areas to improve the quality and safety of health care for children and young people in NSW.

Acknowledgement
The Clinical Excellence Commission acknowledges the contribution of the Paediatric Safety and Quality Network Committee in development of this resource.
