Reshaping Australia’s health system, RECOVERY trial and rehabilitation post COVID-19

Peer reviewed journals featured:
- An article in the MJA on how COVID-19 will reshape the Australian health system [here]
- Assessing citizen compliance with COVID-19 public health measures with surveys [here]
- Venous thromboembolic phenotypes of COVID-19 patients [here]
- A review on COVID-19 dentistry [here]
- Suitability and sufficiency of telehealth-based COVID-19 testing [here]
- A review of evidence, guideline recommendations, and perspectives on lopinavir/ritonavir [here]
- An observational cohort study on the effect of lockdown on management of ischaemic stroke [here]
- Kinetics of viral load and antibody response in relation to COVID-19 severity [here]
- Controlling the spread of COVID-19 by a heated air disinfection system [here]
- Expert consensus protocol of rehabilitation for COVID-19 patients [here]

Published in the BMJ:
- Inside story of the RECOVERY trial [here]
- Clinical frailty scale for risk stratification in patients with COVID-19 [here]
- Editorials on:
  - Protection from COVID-19 for health workers [here]
  - Lessons from Leicester on a COVID-19 testing system that is not fit for purpose [here]

Published in Nature journals:
- OpenSAFELY: factors associated with COVID-19 death in 17 million patients [here]
- Immunological and inflammatory profiles in mild and severe COVID-19 cases [here]
- UK consensus on the treatment of pancreatic cancer during the COVID-19 pandemic [here]
- Sex differences in infection rates and potential link to prostate cancer [here]
- Neurological immunotherapy in the era of COVID-19 - looking for consensus in the literature [here]
- COVID-19 PICU guidelines: for high- and limited-resource settings [here]
- European consensus recommendations for neonatal and paediatric retrievals of positive or suspected COVID-19 patients [here]
- News items on innovative diagnostics [here] and whether coronavirus is airborne [here]
- Commentary on the effect of pandemics on women [here]
Letters and correspondence discussed:

- In response to ‘the novel use of home pulse oximetry’: an Australian offer of support here
- US withdrawal from WHO is unlawful and threatens global health and security here
- Primary care physician perspective on tele-visits here
- Flattening the curve of new publications on COVID-19 here
- New latent safety threats in high-risk patient care scenarios here

Pre-peer review articles featured:

- A rapid systematic review on the organisation of primary health care here
- A systematic review and meta-analysis on impacts of congestive heart failure and the role of cardiac biomarkers here
- A topic analysis of traditional and social media news coverage and implications for public health communication here
- The role of masks in post-lockdown resurgence of COVID-19 in the US here
- A rapid GRADE review on the risk of infection transmission to healthcare workers delivering supportive care here
- Ranking the effectiveness of worldwide COVID-19 government interventions here
- Considerations for evidence-informed decision-making on non-pharmacological interventions here
- Cross-sectional survey of public perceptions, knowledge, and behaviour during COVID-19 here
