for Clinical
Innovation

Making Choices

Friday May 30, 2014

Daniel Comerford
Director, Acute Care
NSW Agency for Clinical Innovation
02 9464 4702 | 0407 946 438 | daniel.comerford@aci.health.nsw.gov.au

Key
 ACI=NSW Agency for Clinical innovation
 CEC=NSW Clinical Excellence Commission

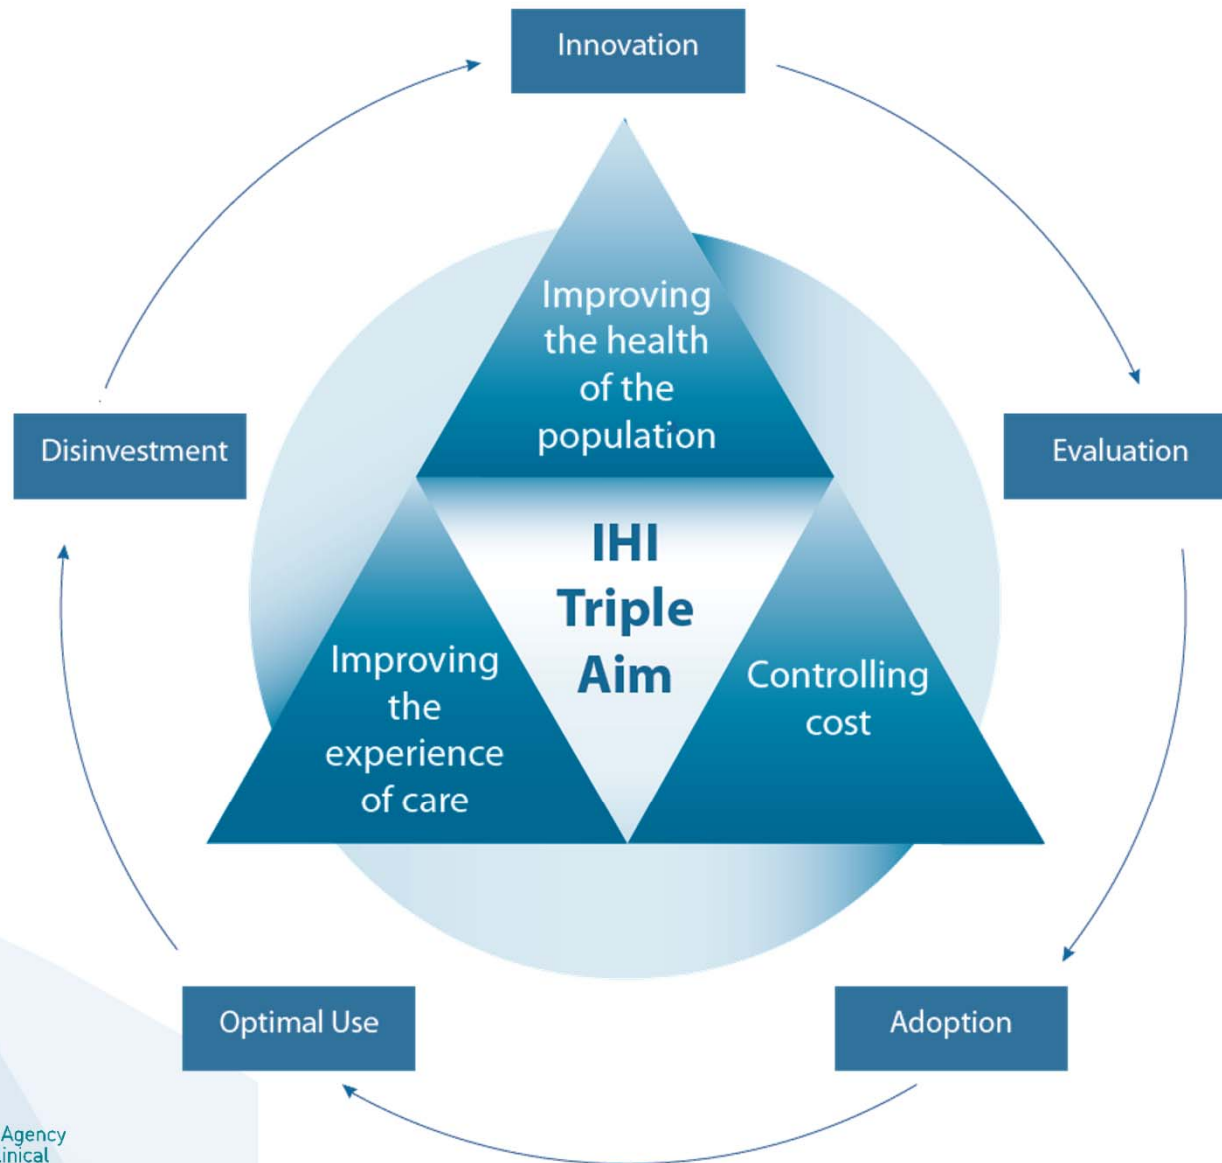

HETI=NSW Health Education and Training Institute
 MOH=NSW Ministry of Health

MAU=Medical Assessment Unit
 HITH=Hospital in the Home
 LHDs=NSW Local Health Districts and Speciality Networks

What we **want** to do vs what we **can** do

- There is a limit to our resources (time, space, skills, dollars...)
- What we ‘spend’ on one thing is no longer available to spend on something else
- We should aim to ‘buy’ the most health with our resources

ACI Approach

Prioritisation Process

1. **IDENTIFY** proposed initiatives
2. For each proposed initiative **ASK**:
 - Clinical questions
 - Context-based questions
 - Value-based questions
3. **FILTER** out any proposals that do not meet set criteria
4. For remaining initiatives, **LIST THEM IN ORDER** of priority
5. **QUANTIFY THE RESOURCES** available
e.g. people time, consumer time, other 'in kind', financial
6. Identify initiatives that can be achieved **WITHIN RESOURCES AVAILABLE FOR THE SPECIFIED TIME PERIOD**
