Ventilation, general practice, health system preparedness, social distancing and border restrictions

Peer reviewed journals featured:

- A study focused on the effects of ventilation on the indoor spread of COVID-19 [here](#).
- Ethics-based analysis of SARS-CoV-2 challenge studies and risk minimisation [here](#).
- A transmission model of COVID-19 to inform health system preparedness in Australia [here](#).
- An epidemic re-normalisation group framework for the interplay of social distancing and border restrictions during COVID-19 [here](#).
- A modelling study on lung perfusion abnormalities and early COVID-19 hypoxemia [here](#).
- An editorial on changes to UK general practice as a result of COVID-19 [here](#).

Pre-peer review articles featured:

- Analysis of the impact of closing schools, closing bars and wearing masks during COVID-19 [here](#).

Reviews

- The Canadian National Collaborating Centre for Methods and Tools updated its rapid review on COVID-19 re-infection and new transmission after recovery [here](#).

News and Blogs

- A video from Associate Professor Sam Harvey on supporting doctors' mental health during COVID-19 [here](#).
