

Living Well in Multipurpose Services (MPS)

The Living Well in MPS Principles of Care have been developed to support staff in providing care for residents of MPS, not as patients in hospital, but as people living in their home.

Principles in Practice

	<p>86% of residents feel that their culture and beliefs are respected</p>	<p>Respect for rights as an individual</p> <ul style="list-style-type: none"> • Everyday opportunities for choice and decision-making • Acknowledge residents' histories and culture • Identify and encourage personal interests • Remember residents
	<p>85% of residents report they know their MPS as their home</p>	<p>Informed and involved</p> <ul style="list-style-type: none"> • Negotiate local pathways for referral and service delivery • Provide information and learn about residents • Greater role for shared decision-making • Advance care plan and communicate with families
	<p>95% of residents and carers/families report staff understand their health and care needs</p>	<p>Comprehensive assessment and care planning</p> <ul style="list-style-type: none"> • Engage residents in care planning • Team approach • Implement communication strategies/tools
	<p>95% of residents report their families and friends are welcome at the MPS</p>	<p>Homelike environment</p> <ul style="list-style-type: none"> • Promote decision-making and control • Modify physical layout of MPS facilities • Personalise private space and encourage family participation • Provide access to outdoors and include pets
