Research informed strategy, equity, post infection immunity, symptom tracking

Peer reviewed journals featured:
- A viewpoint from the Lancet Rheumatology on the immune mechanisms of pulmonary intravascular coagulopathy in COVID-19 pneumonia [here]
- Strategies for COVID-19 that draw on insights from management research [here]
- Several articles in JAMA, including:
  - An editorial on a new kind of “herd immunity” related to health equity [here]
  - A viewpoint outlining the opportunity to achieve greater equity of healthcare of vulnerable populations [here]
  - A viewpoint on post infection immunity [here]
- Real-time tracking of self-reported symptoms to predict potential COVID-19 infection via a smartphone-based app based used by 2.6 million participants [here]
- A discussion, in Science, of the ethics of controlled human infection to study COVID-19 [here]
- The role of surveillance, early detection and outbreak management in the containment of COVID-19 cases among healthcare workers [here]
- Perspectives from five countries about providing quality end of life care to older people during COVID-19 [here]

Letters on:
- A case report of a patient with a long incubation period - of 38 days [here]
- Summary of the policies implemented by the Taiwanese government to maintain stockpiles of masks during COVID-19 [here]

Pre-peer review papers feature:
- Mobility restrictions and transmission rates of COVID-19 [here]
- Characteristics of acute kidney injury (AKI) in critically ill patients with severe COVID-19 [here]
- A study of 65 US hospitals showing a rapid decrease in stroke, acute coronary syndrome, and corresponding interventions [here]
Reviews:
- New resources from the Centre for Evidence Based Medicine include a review on preventing non-COVID-19 hospital admissions [here](#), and clinical trial report cards for Remdesivir [here](#) and chloroquine and hydroxychloroquine [here](#).

Guidance released includes:
- Top tips for General Practitioners caring for care homes by the Royal College of General Practitioners UK [here](#).

Twitter:
**COVID19 Impacts**
@EricTopol shared a paper on implications of COVID-19 and exploring the implications of long-term conditions/extent of multimorbidity, a modelling study that predicts years of life loss of more than a decade [here](#), and accounts of COVID19 survivors [here](#) and [here](#).
Economic world forum, differences and delays misleading all-cause mortality with Figure 1 [here](#).

**Easing lockdowns**
The UK Government’s COVID-19 recovery strategy [here](#).
From @BMJlatest the Hong Kong government has begun to distribute reusable facemasks to its 7.5million people and households will be supplied with 10 single use surgical masks [here](#).
@theMJA insight preparing for any 2nd wave of COVID-19, learnings from an Australian tertiary hospital [here](#).
