

# Emergency Care Institute

## Clinical resources development and review process

The Emergency Care Institute (ECI) complies with the Agency For Clinical Innovation's policy on the initial development and review of the clinical resources. The document titled 'Principles for Developing Clinical Guidelines' considers the relevance and actionability, transparency, collaboration, evidence, currency and accessibility. Below is a flow chart outlining the process and is relevant to the ECI Clinical Tools, Emergency Procedures and Patient Fact Sheets. If you have any questions, please contact [aci-ecis@health.nsw.gov.au](mailto:aci-ecis@health.nsw.gov.au).
