Systemic corticosteroids, non-communicable diseases, asymptomatic transmission

Peer reviewed journals featured:

- A living systematic review and meta-analysis of prevalence, risk factors, clinical characteristics and outcomes of COVID-19 in healthcare workers [here](#)
- A meta-analysis on the association between administration of systemic corticosteroids and mortality among critically ill patients with COVID-19 [here](#)
- An update to the Cochrane rapid living systematic review on rehabilitation and COVID-19 [here](#)
- BMJ editorials on:
  - The impact of COVID-19 and the challenges ahead for primary care networks [here](#)
  - Underestimating seroprevalence of SARS-CoV-2 [here](#)
  - Living with COVID-19 [here](#)
- A primer on optimal management of acute coronary syndromes during COVID-19 [here](#)
- A briefing on COVID-19 case detection and asymptomatic disease [here](#)
- A viewpoint on caring for patients with COPD and COVID-19 [here](#)
- An editorial on COVID-19 and non-communicable diseases [here](#)
- Commentary on mental health and the NHS workforce [here](#)
- A viewpoint on emergency use authorisations for treatments and vaccines during COVID-19 [here](#)

Pre-peer review articles featured:

- A living systematic review of the role of asymptomatic SARS-CoV-2 transmission [here](#)
- Epidemiological modelling on exposure, susceptibility, and transmission of a second wave [here](#)

Guidance and reports

- The World Health Organisation published a rapid assessment of the impact of COVID-19 on non-communicable disease resources and services [here](#)
- The National COVID-19 Clinical Evidence Taskforce has updated its recommendations and clinical flowcharts [here](#)
- The National Institute for Health and Care Excellence updated its COVID-19 guidance for critical care in adults [here](#)
News and blogs

- BMJ blogs on:
  - The cost of providing care during a pandemic [here](#)
  - Restricting visitors in hospitals and care homes [here](#)
- COVID-19 and violence against health care workers [here](#)
